

You Get Square Deal

When You Buy Square Deal Fence

Fences You See In Catalogs with the bulls and horses behind them look stout. Any kind of a fence can hold a bull on paper. Square Deal Fence does it on your farm. Just step into our store some day and let us show you Square Deal Fencing. You can look at the fence without feeling under any obligation to buy.

The Square Deal Lock is the secret of the success of this fence. It grips the stay wires above and below the strand wires, and will not let them slip. There are no brittle welds to snap—no cumbersome knots to hold moisture, gather rust and shorten the life of your fence.

The Stay Wires are in one straight piece from top to bottom of fence. That means no sagging, no bagging, no buckling to let the pigs underneath. These Square Deal one-piece stay wires help support the fence and save fence posts—lots of 'em. That means fewer post holes to dig—less cost for posts and less cost for labor. All these things count in buying fence.

The Wavy Strand Wires keep Square Deal fence tight and trim the whole year round. They give the fence elasticity so it springs right back into place after sudden heavy strains. We have been handling wire fencing a long time and we want to sell you Square Deal fence because we honestly believe it beats all others in strength, durability and appearance and gives you much more fence value for your money. Come in and get Square Deal prices the next time you come to town. Anyway, don't buy another rod of fencing until you see for yourself why Square Deal is the best fence value on the market today.

METHODIST HEAD

In Japan, Bishop Honda, Died Few Days Ago.

Nashville, Tenn., April 9.—Bishop Y. Honda, the first and only bishop of the Methodist Episcopal church in Japan, died in that country a few days ago, news of his death being received by cablegram yesterday afternoon by the board of missions.

Bishop Honda had the esteem of Southern Methodists everywhere and those who knew him well felt for him a warm affection. His service to his native church had been a distinguished one and his name is known wherever Methodism is known. The Methodist church in Japan was organized in 1907 and was the result of the missionary work of the Methodist Episcopal Church South, and the Canadian Methodist church. These churches have had missions in Japan for a quarter of a century, but the organized work was not begun until 1907. Under the law of the church Bishop Honda was elected in 1907 for eight years. As the death of Bishop Honda leaves the Japanese Meth-

odist church without a bishop, it is probable a special session of the conference will be called to fill the vacancy.

For better, ringworm, eczema, running sores and all skin diseases Dr. Bell's Antiseptic Salve is guaranteed to give satisfaction or you get your money back. 25 cents everywhere.

Fabulous Price for Tulips.

Though orchids frequently bring prices that make the poor man stagger, the highest price for a single flower was given for a tulip in Amsterdam by an enthusiast who paid \$250,000 for it.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by local applications. Send for circular, free.

FACT

Local Evidence.

Evidence that can be verified.

Fact is what we want.

Opinion is not enough.

Opinions differ.

Here's a Marion fact.

You can test it.

G. W. L. Nesbitt, Marion, Ky., says: "Kidney disease had made me an invalid. I was often in bed for two weeks at a time and no tongue can describe my suffering. I had often wished that death would come and end my misery. The kidney secretions became highly colored and my limbs were badly swollen. My sight also failed and the doctors had little hope for my recovery. I could hardly hold my arms above my head, in fact, my right side was paralyzed. I had lost all hope when a relative advised me to try Doan's Kidney Pills. I finally consented to give this remedy a trial, and a box was procured at Haynes & Taylor's Drug Store. I improved from the first dose and after I had taken the contents of one box, I was so greatly relieved that I felt confident I had at last found something that would cure me. One by one the symptoms of my trouble disappeared, and in three months I was a well man, attending to my business in the usual way. That Doan's Kidney Pills are the greatest remedy in the world for kidney disease, is a fact of which I am firmly convinced."

The above statement was given Feb. 3rd, 1908, and on Feb. 3rd, 1909, Mr. Nesbitt said: "I still believe Doan's Kidney Pills are a good kidney remedy. I have not used any in over a year. You are at liberty to publish my former statement."

Farmers' Bank

of Marion, Kentucky.

Capital Stock \$15,000

Before the introduction of Rural Free delivery of mails in this county, it was inconvenient for many citizens of the county to transact their banking business in Marion.

On account of that inconvenience, many of this county's citizens began to do business with banks located in other counties.

The daily delivery of mail from Marion to the homes of almost all parts of the county, removes that inconvenience, and this bank has many patrons whose accounts are very active, but who seldom find it necessary to pay a personal visit to this bank. The mail brings in their business one day, and delivers them the bank's receipt at their gate, on the next day.

It is the purpose of this advertisement to reach such of the citizens of this county as may be continuing to transact the banking business with banks located outside this county, and invite them to patronize the institutions of their own county.

The Banks of this county, and their owners, pay their taxes in this county; they help to build and maintain the roads and bridges that you use; they help to maintain the schools in which your children are being educated. In these matters they are partners with every tax payer in this county.

Money deposited in the banks here, may be borrowed by your neighbor for the development of his business, and in helping him to his success, it helps to increase our county's resources.

Banks located in other counties do not help you pay taxes or maintain your schools but they use the money they make from your patronage, in developing the resources of some other county.

Unless outside banks can offer you some facility or security that your home banks cannot offer you, do you not believe that loyalty to your home institutions should cause you to prefer to patronize them?

Some men have an idea that a National bank is more secure than a State bank, and for that reason hunt up a National bank to transact their business. The facts are; a National bank is not adapted to the needs of rural communities. No National Bank could lend your a thousand dollars on a ten thousand dollar farm, because the law forbids.

No National Bank could make you an offer for real estate notes, for the law forbids this kind of investments for them.

Your home banks can serve you in this way, because they are not restricted by the laws governing National Banks.

National Banks are required by law to keep as much as twenty-five per cent of their deposits in cash and on deposit in other banks.

On April 1st, this bank had seventy-one per cent of its deposits in cash and in other banks.

Some men have an idea that a large bank is safer to do business with than a small bank. The safety of any bank depends on the character and business ability of the men who manage its affairs.

A small field may be more carefully cultivated than a large one, so a small bank may be more carefully managed, more economically conducted, and is generally, more liberal in its dealings with its patrons.

If you are disposed to patronize your home banks, but are not quite ready to make the change now because you owe the other bank, come in and borrow from us the money you owe them, and pay them off and let them depend in the future on their home people for their patronage.

If you doubt our ability to serve you perfectly, ask your neighbor who does his business with us, he can, and will, gladly tell you how we do business.
